

Corporate Transactional Attorney Job Code 178CT

Description

Fate Therapeutics' legal group is seeking a career oriented attorney with significant life sciences experience to provide transactional support for the Company's operations, with a particular focus on implementing agreements to support clinical operations and product development. The successful candidate will interact with personnel at all levels of the Company as well as with external parties to prepare, review, and negotiate a range of complex contracts. Effectiveness in this position will require extensive knowledge of the pharmaceutical and biotechnology industries and the ability to identify business and legal risks and offer creative solutions. The successful candidate also must have the ability to work independently with minimal instruction under the supervision of the General Counsel, and must be able to work accurately in a fast-paced environment and maintain a sense of urgency. This is a full-time position reporting to the General Counsel, and requires 100% on site work at the Corporate headquarters in San Diego.

Responsibilities

- Review, draft, redline, negotiate, and approve for execution a range of contracts and other documents relating to the conduct of clinical research and product development, including clinical trial agreements, manufacturing and quality agreements, research agreements, technology in-licenses and out-licenses, joint development agreements, term sheets and other agreements of varying complexity, as needed
- Negotiate directly with external parties, including hospitals and research institutions, interfacing with internal counsel and business units as required
- Develop new and update existing contractual documents and templates
- Assist internal clients with contract negotiation, clinical development documentation and SOWs, as appropriate
- Analyze legal rights, obligations, risks, and compliance issues
- Assist with other legal and risk management matters as requested, including with respect to regulatory, corporate governance, licensing, diligence, or litigation matters

Qualifications

- 5+ years of experience preparing and negotiating a variety of agreements for life sciences
- Significant experience with clinical trial agreements required, and a working knowledge of intellectual property law is strongly preferred
- Expertise in FDA regulatory requirements and clinical trials compliance preferred
- J.D., with California State Bar membership preferred
- Excellent writing, negotiation, and communication skills

- Strong organizational skills, with ability to prioritize in a dynamic, rapidly changing environment

The preceding job description indicates the general nature and level of work performed by employees within this classification. Additional and incidental duties related to the primary duties may be required from time to time.

About Fate Therapeutics, Inc.

Fate Therapeutics is a clinical-stage biopharmaceutical company dedicated to the development of programmed cellular immunotherapies for cancer and immune disorders. The Company's hematopoietic cell therapy pipeline is comprised of NK- and T-cell immuno-oncology programs, including off-the-shelf product candidates derived from engineered induced pluripotent cell lines, and immuno-regulatory programs, including product candidates to prevent life-threatening complications in patients undergoing hematopoietic cell transplantation and to promote immune tolerance in patients with autoimmune disease. Its adoptive cell therapy programs are based on the Company's novel *ex vivo* cell programming approach, which it applies to modulate the therapeutic function and direct the fate of immune cells. Fate Therapeutics is headquartered in San Diego, CA. For more information, please visit www.fatetherapeutics.com.
