

**Senior Training & Compliance Associate / Training & Compliance Associate III, Process Development and Manufacturing Support
Job Code 587SM**

Description

Fate Therapeutics is seeking a motivated, conscientious, and talented individual to support the company's Process Development and Manufacturing Support team, pursuing the development and implementation of technology transfer and process training programs. The successful candidate will work closely with various functional groups including Process Development, GMP Manufacturing, Quality Assurance, and Manufacturing Sciences and Technology to transfer new program and technologies into a cGMP paradigm and ensure complete training of process operators. Previous experience working in a cGMP environment, developing controlled documentation, transfer of technical processes, and performing cell culture preferred. This is a full-time position reporting to a Supervisor, Process Development and Manufacturing Support, and may require weekend hours, located at our corporate headquarters and research facilities in San Diego, CA.

Responsibilities:

- Develop and revise controlled documentation for training and technology transfer protocols
- Author and/or review GMP batch records and SOPs as required
- Facilitate transition of new programs and processes into Manufacturing
- Communicate and collaborate with various functional groups on the development of new programs and future implementation
- Perform both classroom and hands-on training sessions for Manufacturing personnel and assess trainee ability to perform processes

Qualifications

- B.S. / M.S. with a minimum of 3 years of relevant cGMP experience preferred
- Prior experience with technology transfer of cGMP processes preferred
- Prior experience developing and/or revising controlled documentation
- Meticulous record-keeping skills and excellent written and verbal communication skills are a must
- Ability to work in a fast-paced setting, meet aggressive deadlines, and work on multiple projects
- Working knowledge of stem cell biology is preferred

Working Conditions and Physical Requirements

- Weekend work may be required
- Will require working with cell lines of human and/or animal origin
- 100% on-site work at corporate headquarters in San Diego, CA

The preceding job description indicates the general nature and level of work performed by employees within this classification. Additional and incidental duties related to the primary duties may be required from time to time.

About Fate Therapeutics, Inc.

Fate Therapeutics is a clinical-stage biopharmaceutical company dedicated to the development of first-in-class cellular immunotherapies for patients with cancer. The Company has established a leadership position in the clinical development and manufacture of universal, off-the-shelf cell products using its proprietary induced pluripotent stem cell (iPSC) product platform. The Company's immuno-oncology pipeline includes off-the-shelf, iPSC-derived natural killer (NK) cell and T-cell product candidates, which are designed to synergize with well-established cancer therapies, including immune checkpoint inhibitors and monoclonal antibodies, and to target tumor-associated antigens using chimeric antigen receptors (CARs). Fate Therapeutics is headquartered in San Diego, CA. For more information, please visit www.fatetherapeutics.com.
